Dear Friend:

Your letter of November 27 received in regards to a tape you had left with Johnny Johnson back in 1966 and please pardon my delay in answering your letter.

I am familiar with the fact that there was a tape supposed to have been given to Johnny Johnson. However, I had never seen any tape that was left with him and since he has been out of my employe for over a year, I have no other information in regards to same. However, I might add for your information and to be safe, you should always deliver things yourself personally to the party you wish to have whatever it might be and never depend on other people. I have learned this the hard way. Therefore, I am indeed sorry I cannot be of any further help to you and may I remain.

Most sincerely yours,

HANK SNOW
